

LCN Romance Make-up – the new Trend Colours for Spring / Summer 2010

, den 18.02.2010

This spring is all about tenderness. It's high time to enjoy the romantic side of life. The new LCN trend look invites you to take pleasure in these delicate and soft shades of the LCN "Romance" make-up. Softly shimmering rosé inspire a dreamy and romantic look.

Seductive moments

In spring especially when the first tulips bloom and the first rays of sunshine create a good mood we are especially sensitive and emotional. This mood is reflected in fashion. Light, floating fabrics with playful designs dominate the coming season.

The Special Mono Eyeshadow shiny brown can be combined with many colours. It gives special depth and warmth to every glance. The relief structure of the Special Mono Eyeshadow shiny brown makes it an especially attractive companion.

Eyeshadow Pearlpower rosé is perfect for discreet and romantic moments. In addition, the Eyeshadow Pearlpower rosé contains moisturising components. Liquid Eyeliner rosé glitter creates shimmering highlights on the lid line. For eyes as radiant as the stars.

A complexion as fresh as spring

Slightly pink cheeks give a fresh, healthy look. Sometimes they betray our awkwardness or excitement before the first kiss of our spring love. Blusher Romance multicolor creates a fresh spring complexion. Combined with blusher it perfectly enhances the facial contours.

To apply a romantic make-up you need the right brushes. The Romance brush set in a beautiful case contains the seven most important brushes for a perfect make-up. The brushes of the Romance brush set are made of pony hair and perfectly adjust to their respective use.

Romantic lips

The new lip gloss pearly rose creates romantic shimmering lips in a soft shade of rosé. The light violet lip gloss lovely lilac is especially nice for a rendezvous. The lips shine seductively and still appear self-confident. Placing special accents is especially easy with the lipstick love reflection, a berry violet. The lipstick magnificent mauve, a shade of violet creates a secretive look.

Fanciful nails

The make-up colours as well as the lip glosses and lipsticks of the LCN Romance look blend exceptionally well with the LCN Romance Nail Polishes in the colours lovely lilac, a transparent

shimmering violet, love reflection, a berry violet, pearly rose, a graceful shade of rosé as well as magnificent mauve, a soft violet. The Romance Nail Polishes are available individually as well as in a promotional set. In addition LCN provides two different displays.
